

A global leader in automotive innovation, Suprajit seamlessly blends vast scale with localized expertise, powered by cutting-edge technology. With over 30 years of experience, we've grown into India's largest cable maker and the world's leader in two-wheeler light-duty cables. But we don't stop at cables—our portfolio extends to electronics, braking systems, and lighting.

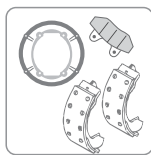

Founded in 1985, Suprajit's entrepreneurial spirit drives our strategic growth through key acquisitions like Wescon Controls, Phoenix Lamp, and Kongsberg LDC. Headquartered in Bangalore, our global presence spans multiple markets, delivering quality, cost efficiency, and customer satisfaction worldwide.

Even as we expand, we stay connected to the communities we serve, offering local manufacturing and engineering solutions, all while maintaining our commitment to innovation and excellence.
